MEMORANDUM FOR: Director of Operations DPS/DCI

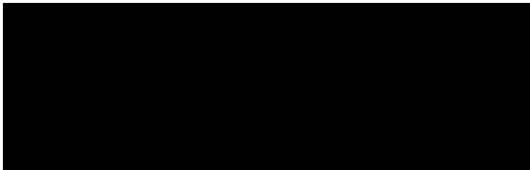

25X1A9a ATTENTION : 

25X1C8a SUBJECT : A Duplicate Positive for 

25X1C8a 1. This note is to confirm our telephone conversation in which I reported that in our discussions recently with  the request was made to receive a duplicate positive instead of a print in addition to the duplicate negative on USSR and satellite penetration missions. The explanation for this is that the duplicate positives are required for PI work on light tables and they constitute more of a reproduction problem in the face of limited facilities than the reproduction of occasional prints that are required.

25X1C8a 2. Accordingly, you are requested to discontinue the print for the  and, if feasible, to provide a duplicate positive in addition to a duplicate negative.

25X1A9a
